

2nd Annual Seed Spreading at Mill Seat Restoration Area

Come join the Rochester Institute of Technology's Wetland Ecology Team and WM to spread native seeds in our newly created wetlands at the Mill Seat Wetland Restoration Area in Bergen, NY. Last year was a success! Our plants are flourishing, and we want to spread more!

Where: Mill Seat Wetland Mitigation Area (Specific location will be sent in an email after RSVP)

Date: Friday November 18th, 2022

Time: 2-3:30pm

Who is invited: *All are welcome!* Fun activity for the whole family. Donuts and cider will be available. Be prepared for any weather conditions. Long pants, hiking boots, and warm attire may be necessary.

RSVP by Friday November 16th-Google Form
